

## 2023 REPORT TO SUPPORTERS

February 21, 2023

Dear Supporters,

We are pleased to inform you that our family has chosen to recommend the \$1,628.00 granting balance this year from the Taylor Toller Memorial Fund to **Oxford House Calgary**. Oxford House's mandate is to provide people recovering from addictions with a supportive program and a safe home to achieve a productive, rewarding, clean, sober life.

We chose Oxford House because your donation will provide a safe home for someone in recovery for 180 days! **One in five adults in Alberta is directly affected by addictions.** As a member of long-term recovery, I can attest to the power of a home in giving someone hope, stability, and a chance to start anew. The people of Oxford House have been there and understand that acceptance, optimism, honesty, personal accountability, goal setting, and gratitude are crucial to long-term recovery. They provide it! Your generosity will truly make a life-changing impact and give someone a family-oriented and safe place to call their own.

If you would like more information or would like to support Oxford House in its mission further, visit <https://www.oxfordhouse.ca/>

Finally, we are pleased to inform you that the fund's market value is now \$31,142.57. If you joined us in 2018, when our fund was at \$19,640.00, you could see how your initial gift has grown and continues to support worthy charities perpetually! We thank you once again for your past donation.

With Gratitude,

Joanne Toller

Our family started the Taylor Toller Memorial Fund in memory of Taylor, who died suddenly and tragically due to domestic violence on July 26, 2018. It is a Donor Advised Permanent Endowment Fund at the Calgary Foundation, and every year, on Taylor's birthday, a percentage of the market value of the Fund is granted for a charitable purpose on our recommendation, prioritizing the fields of Family Violence and Addictions.
